Trem para Hogwarts — mapa para carrinhos e trenzinho

2 cartolinas de 50 × 66 cm lado a lado (100 × 66 cm) • 12 folhas A4 • 18 peças

cartolina da esquerda: páginas 2 a 7

cartolina da direita: páginas 8 a 13

Como montar

1. Imprima as folhas 2 a 13 em A4 de 180 g, em pé e no tamanho real (100%), sem “ajustar à página”.
2. Recorte cada peça na linha tracejada. O número na miniatura é a página do PDF. As páginas 6, 7, 12 e 13 têm peças menores (lado a lado ou uma embaixo da outra).
3. Páginas 2 a 7 vão na cartolina da esquerda; 8 a 13 na da direita. Comece pelo canto de cima à esquerda. As letrinhas vermelhas na beirada se encontram: A com A, B com B…
4. Junte as duas cartolinas: as estrelinhas roxas se encontram (1 com 1, 2 com 2, 3 com 3).
5. Coloque os trilhos em cima da faixa de brita. Ela serve tanto se os 68 cm forem medidos por fora quanto pelo meio dos trilhos. Em cima e embaixo, os trilhos passam um pouquinho para fora do papel.
6. As peças 3D (castelo, túnel, ponte, placas e casinhas) estão no outro PDF. As linhas tracejadas no mapa mostram onde cada uma fica.

Medidas

Trilhos: círculo de 68 cm (faixa de brita de 61 a 72 cm)
Ruas: 9 cm (2 faixas de 4,5 cm)
Vagas: 4 × 9 cm (carrinho: 3 × 7,5 cm)
Plataformas: 39 cm (trem: 33 cm)
Túnel: vão de 11 cm de largura e 8,5 de altura (trem: 5 cm)
